Cinna – this is Steve’s response to information I am looking for and of course your name came up.

Please let me know if you have responsive documents. You can actually read the FOIA request on FOIA on line.

Hi – here is Steve’s response. I have looked at the Upper Animas File and there are data packages which are not responsive. Is there anything you can provide?

There should be items in the Upper Animas site file. Check with Mike Rudy and Richard Sisk for some help. As for work orders, there would TDDs for Mogul or a combination of mines from before in 2010. Site Assessment and Program Support (Dan Wall) was still involved to some degree with sampling all the mines and drainages. Removal only looked at Mogul briefly among several mines on Cement Creek.

We have a cooperative agreement with DRMS to do limited analysis of the Mogul. (Cinna V would have that.)

Hope that helps.

Tina – I have no recollection of chatting about specific records. Can you refresh my recollection?

Hi Richard – were you able to locate the records we chatted about and Steve Way said you might help me find? If you need me to forward Steve's email to you again I will.

Thanks so much
